

WORDPRESS ENGINEERING

Amin Moghadas

Senior WordPress Developer · Plugin Architect · Engineering Lead

Senior WordPress developer with 15+ years of hands-on delivery across custom plugin development, WooCommerce systems, marketplace tooling, performance engineering, and technical leadership. I build WordPress beyond brochure sites: inventory and accounting engines, real-time sync infrastructure, content ingestion pipelines, search and automation flows, and business-critical back-office tools.

EXPERIENCE

Senior WordPress Developer · AbrNOC

Mar 2026 - Present

Cloud hosting and infrastructure · Remote

- Build custom Elementor widgets and internal SEO tooling while leading a migration path toward native Gutenberg blocks for better performance.

Senior WordPress Developer · Imaj Holding

Nov 2025 - Mar 2026

Talajat.net and Hebe.gold · Online gold retail

- Built unified accounting/inventory infrastructure with real-time cross-store sync, launched Hebe.gold, shipped a sub-50ms product filter for 1,000+ products, and migrated both stores to dedicated infrastructure.

Senior WordPress Developer · Musilon

Nov 2023 - Jul 2025

Music streaming platform · Contract

- Designed a content ingestion engine that replaced a heavy manual publishing flow, then added automation with n8n and Elasticsearch, protected media delivery, and upgraded the platform infrastructure.

Engineering Manager / QA & Developer Relations · RtlTheme

Jul 2020 - Jul 2023

Iran's large premium WordPress marketplace

- Scaled the engineering team from 2 to 13, then led QA and developer relations for a marketplace ecosystem of 300+ independent WordPress developers.

Freelance WordPress Developer

2011 - Present

Independent practice · Iran and international clients

- Delivered 100+ projects across custom websites, WooCommerce extensions, B2B systems, booking engines, loyalty platforms, and RTL localization.

FEATURED PROJECTS

Versland

Real-time crypto pricing plugin and widget rebuild.

Wincoin / IRVC

Loyalty-plugin systems and B2B workflows.

SELECTED WINS

Musilon

Increased content publishing speed by roughly 100x through a custom ingestion workflow.

Talajat / Hebe

Built real-time inventory coordination across stores and third-party sales channels.

RtlTheme

Scaled a team from 2 to 13 and supported QA quality across a 300+ developer marketplace.

Commercial Products

Shipped 4 WooCommerce plugins sold on RtlTheme, including payment gateways and store tooling.
